Voucher buyer purchases a voucher online

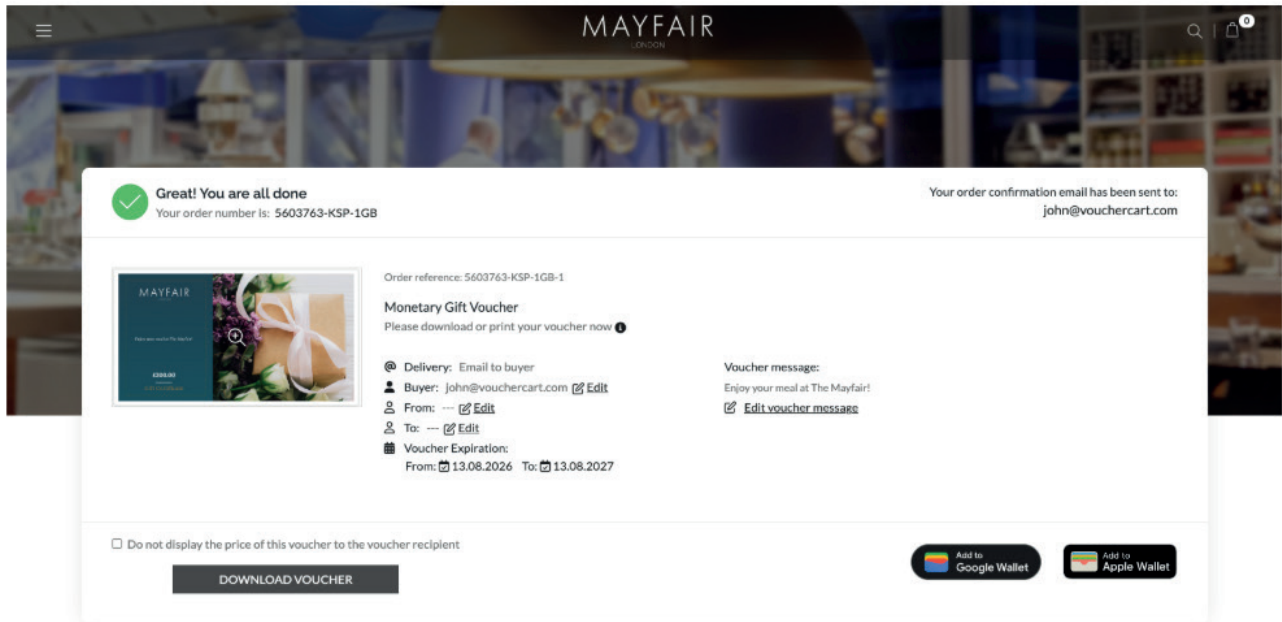

Each VoucherCart account has an online sales page, where the voucher buyer can view and purchase vouchers.

Buyer/recipient downloads the voucher

Once the purchase is complete, the voucher buyer or recipient receives an email containing a URL to the voucher download page.

The download page gives the buyer or recipient access to the voucher after.

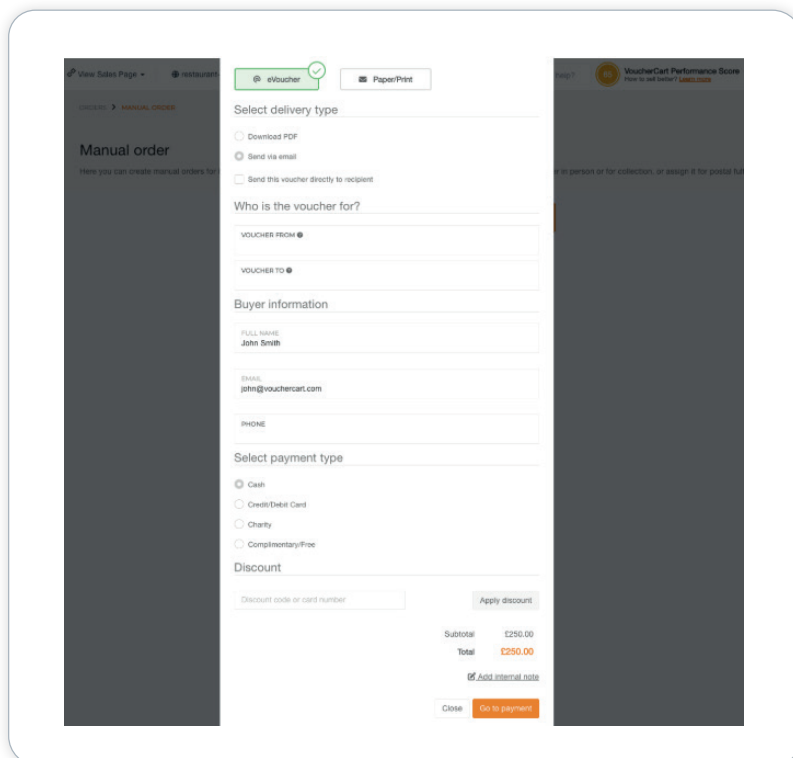

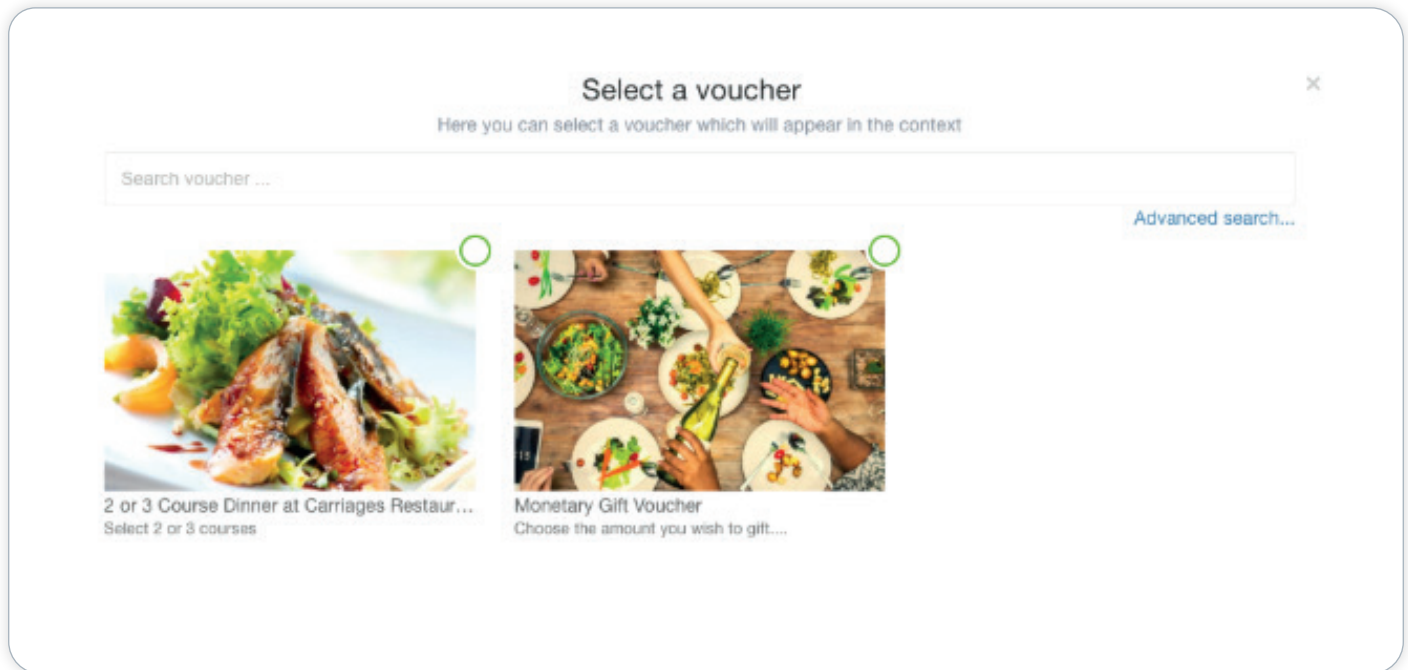

After purchase

The voucher can be downloaded as a PDF or saved to Google Wallet or Apple Wallet.

Issue a voucher manually

Users can issue a voucher manually via the VoucherCart dashboard. The voucher can be delivered by email or printed out.

1

Select voucher

Choose the voucher to issue from the available products.

2

Delivery

Choose email or print as the delivery method.

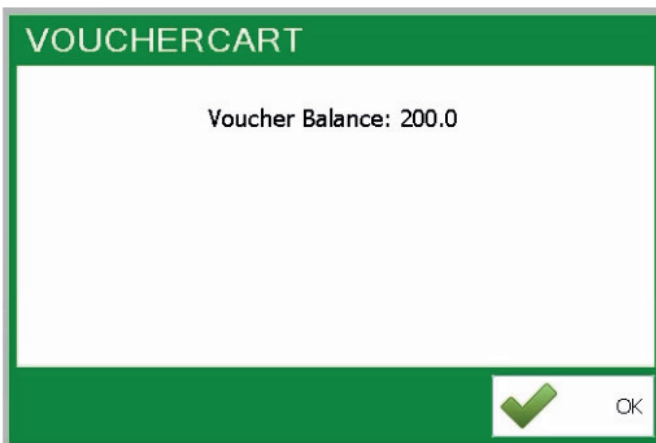

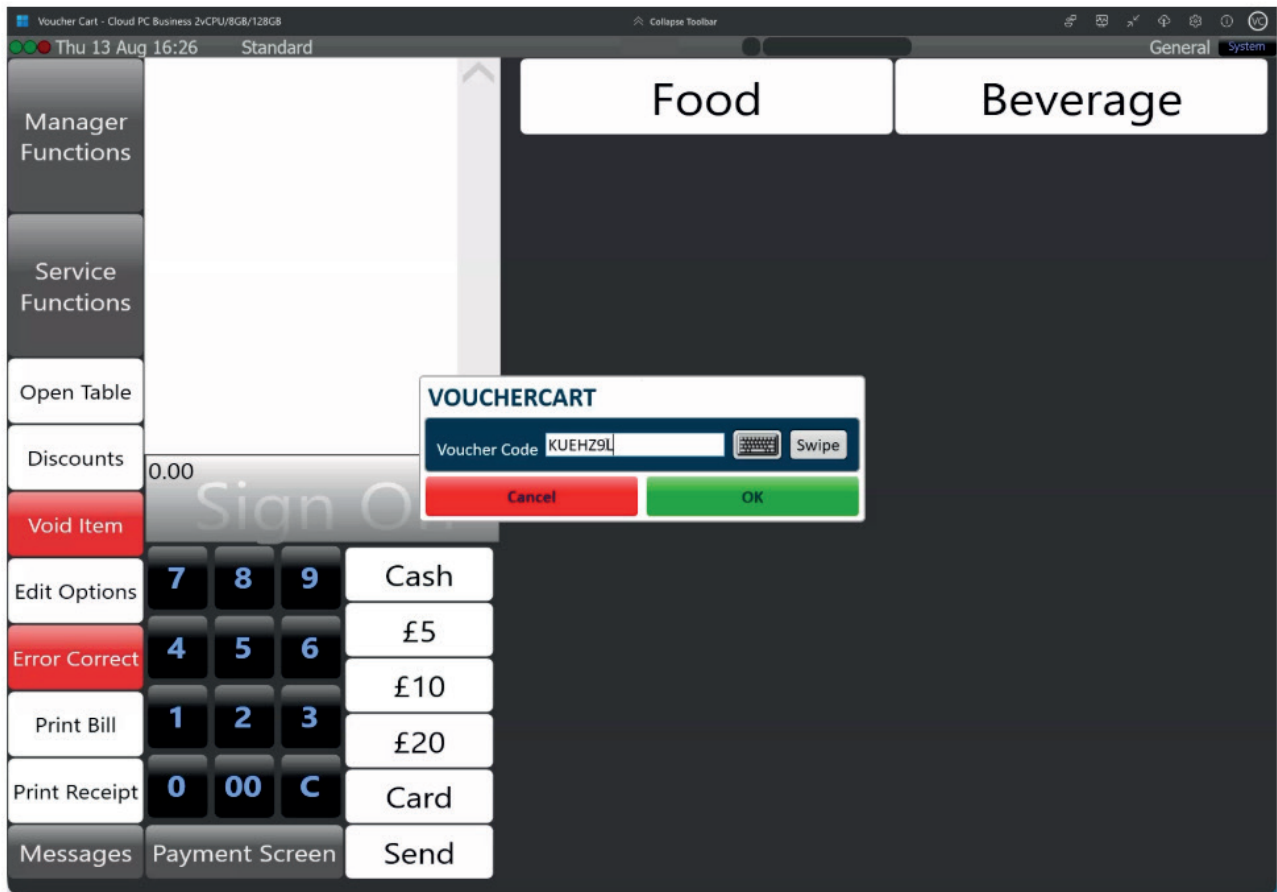

3

Complete order

Enter the buyer details and continue to payment.

Check voucher balance

At Tevalis POS > Service Functions > VoucherCart Check Voucher, enter the voucher code.

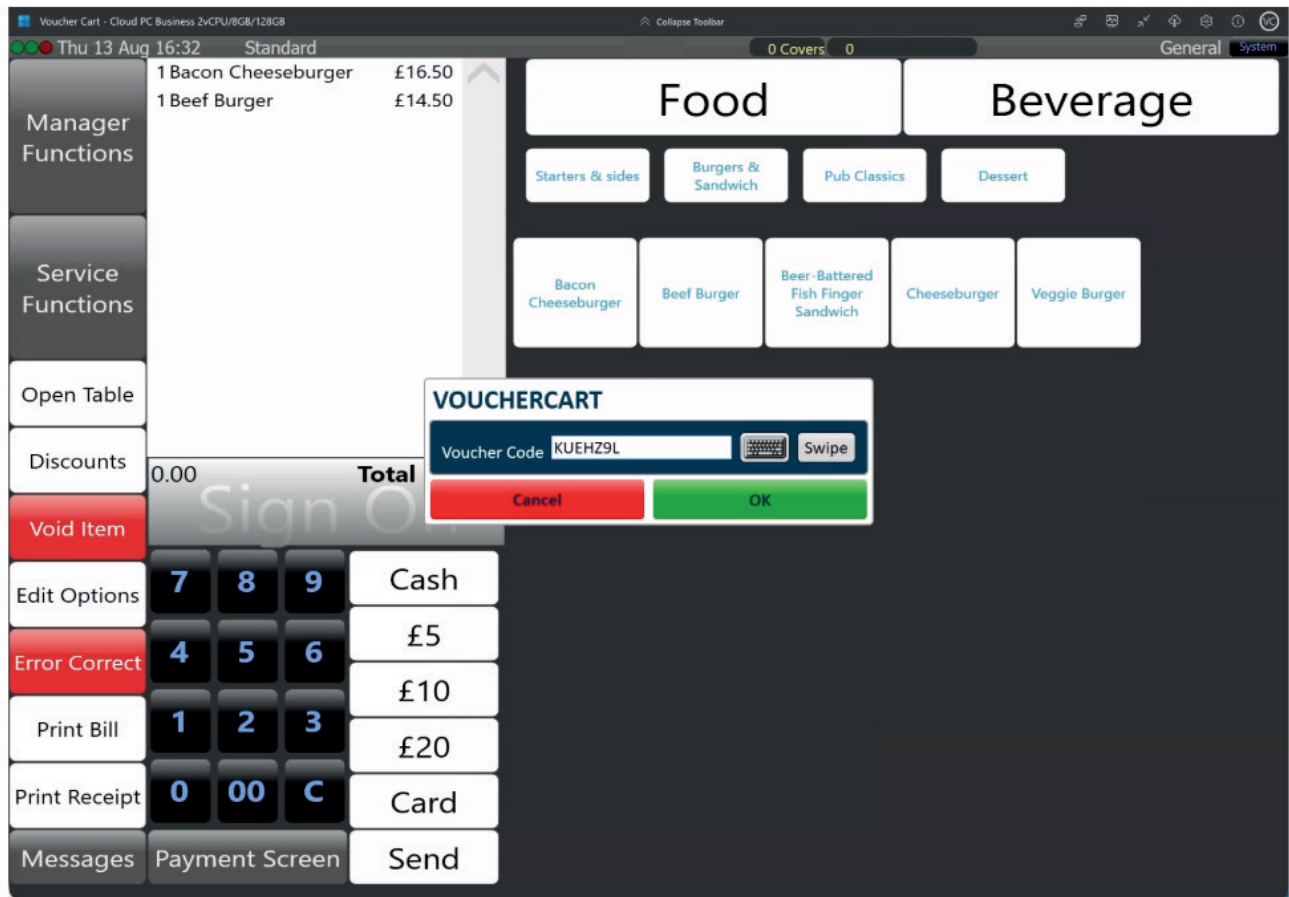

Balance result

Tevalis returns the current voucher balance after the voucher code is checked.

Redeem a voucher

At Tevalis POS > Service Functions > VoucherCart Redeem Voucher, enter the voucher code.

Review the voucher details and click “Redeem Gift Card”.
